

Splash Screen and Log In activity

The app opens to a splash screen which displays the logo of the app. The screen in the middle shows the login screen. If the user doesn't have an account, they can click on "Sign Up" at the bottom of the screen. The sign-up screen shows "Sign Up" button. This will direct the user to the sign up screen for the user.

Home activity

This screen is the main screen to load after the splash screen. The user can type in a "to" location in the search bar and then click on "mode" to enter the "from" location. The user then clicks on "Request Ride" to generate a request.

Driver's Side

On the driver's side, the driver will be shown their current location along with notifications of current active requests. The driver can click on markers and a modal will pop up with details of the ride. They can click on confirm to offer a ride or deny if they do not want to accept this ride. The driver will then be given the option to confirm pick up and once the ride is complete, they can click on "Collect payment".

The driver can click on the top left button to view their past requests.

Rating

Riders can rate a driver and driver can rate a rider by clicking on thumbs up or thumbs down.

Payment Activity

Once the driver accepts, a QR code will be automatically generated and shown on the riders screen. The driver can scan this QR code to accept payment by clicking on "Scan QR code".

Rider's side

Riders can click "to" and "from" locations in the search bars at the bottom. Riders can then click on "Request Ride" button. They will be shown a price estimate and will have the option to offer more. Once "confirm price" button is clicked, a request is generated and the screen in the middle is shown. The rider can click on "Change time" to set a new arrival time since the request was generated, the to and from locations and to view their driver's username. They also have the option to cancel the ride.

Once a driver accepts the request, the rider is receive a notification as shown in the rightmost screen.

Rider's side

Riders can click "to" and "from" locations in the search bars at the bottom. Riders can then click on "Request Ride" button. They will be shown a price estimate and will have the option to offer more. Once "confirm price" button is clicked, a request is generated and the screen in the middle is shown. The rider can click on "Change time" to set a new arrival time since the request was generated, the to and from locations and to view their driver's username. They also have the option to cancel the ride.

Show Profile

Users can click on the top right button to view their own profile. Users can click on "logout" to logout of their account and click on "edit" in the top-right corner to edit their profile.

Edit Profile

The users can edit details in their profile and delete their account.
